Summary

Mike Riley began his professional construction career after high school, At a young age he spent time working the family ranch and working on the job sites as a laborer for his father adding to the already strong work ethic he was able to find his passion which was construction. Mike Riley joined the same company that his father worked for as an apprentice carpenter and did commercial framing. In 2000 Mike went to work for a large commercial builder as a carpenter and excelled to Senior superintendent working on projects from Health care, K-12, Recreation and Higher Education. In Oct 2016 Mike relocated his family to Florida to take a position with a large commercial builder as a senior superintendent, mentor and leader. Mike has a deep knowledge of the industry, Customer Service and the competitive landscape. He is innovative and adept at finding ways to motivate construction teams to exceed expectations.
